Summary

Senior PHP Developer & Software Architect with 20+ years
of experience building and refactoring large-scale web and e-
commerce platforms. Strong expertise in PHP8, MySQL, Sphinx
Search, Redis. Proven track record in designing sustainable,
maintainable systems (Ticketstream, LMC, Testomato) and
leading teams through agile practices (Scrum Master, code
reviews, continuous integration). Focused on long-term scalability,
performance, and clean code culture.

Experience

Testomato
Co-owner & Product Developer
January 2019 - Present (7 years 2 months)
Prague, The Capital, Czech Republic

Development in PHP8, MySQL, Redis, GitLab, Docker. Návrh a údržba
škálovatelné architektury SaaS aplikace pro monitoring webů.

Ticketstream s.r.o.
Software Architect
November 2016 - October 2018 (2 years)
Prague, The Capital, Czech Republic

I was responsible for the complete redesign and refactoring of a 15-year-
old ticketing system that was barely maintainable. The goal was to create a
modern, scalable, and sustainable architecture. While keeping the application
fully operational, I gradually rewrote and replaced legacy components with new
ones, ensuring continuous service without disruptions.

LMC
Senior PHP Developer & Scrum master
March 2013 - April 2016 (3 years 2 months)
Prague

As a Scrum Master and Software Architect, I facilitated daily stand-ups, introduced and maintained planning poker sessions for effort estimation, and led retrospectives to support continuous improvement. I helped the team stay focused on sprint goals and provided architectural guidance to ensure technical consistency and long-term maintainability of the product.
